

## OSCILLATING FAN SYSTEM FOR ODOR CONTROL

In certain circumstances, direct or aerosolized application of Ecosorb is a more effective means of odor mitigation than our flagship vapor systems.

### KEY FEATURES:

- Utilizes Ecosorb® 606, a broad spectrum deodorizer from OMI Industries
- Can be stationary or trailer-mounted for mobile utilization
- Fitted with 330 gallon tote for longer utilization times
- Easy to operate, convenient to fill, powered by portable generator.
- Trailer mounted version can be towed behind windrow turner for highly effective odor reduction.

Both static and trailer-mounted versions are available for purchase as well as short-term rental units.
